DETAILED ACTION

Allowable Subject Matter

Claims 1-86 are allowed.

The following is an examiner's statement of reasons for allowance: This application utilizes the device disclosed in U.S. Patent Number 6,546,782 issued to De La Cruz et al., hereinafter referred to as De La Cruz, with the improvement of a pop-off valve to assist in venting the system so that the test chamber does not exceed a maximum safe pressure. The present application shares the same inventorship and assignments as the De La Cruz reference. The present application is directed to a method of using the device, which has been patented, as well as improving upon said device by a better safety feature with the additional valve. Since the device that is being used for testing is deemed to be novel in view of the prior art, then the method of utilizing such a device would also be deemed to be novel in view of the prior art since you must use a novel device in order to practice the method claimed in the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Application/Control Number: 10/721,305 Page 3

Art Unit: 2856

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The examiner has noted prior art deemed to be relevant to the general state of the art of the present invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney T. Frank whose telephone number is (571) 272-2193. The examiner can normally be reached on M-F 9-5:30 p.m. EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron E. Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
